P2   Trust Washington

       People have different ideas about how much they can trust
       government to do what is right. These ideas don't refer to
       Democrats or Republicans in particular, but just to the
       government in general. We want to see how you feel about
       this for each of the levels of government.

       How much of the time do you think you can trust the government
       in Washington to do what is right -- nearly always or most of the

P11a   Assisted Suicide

     Now, I have a couple questions about public policy.

     The practice of assisted suicide has received a great deal of
     attention in Michigan and the rest of the United States in recent
     years. Some individuals propose banning assisted suicide because
     they feel it threatens the sanctity of human life, while others
     think assisted suicide should be legal for people with
     terminal illnesses.

     Do you think assisted suicide should be illegal, or
     should be it be legal?

P11b   Right to Die

  Next, I have a couple questions about public policy.

  In recent years, debate has centered on whether a right to die
  should exist for the terminally ill. Some individuals support a
  right to die as a humane way for the terminally ill to end
  their suffering, while others feel that such a right would
  threaten the sanctity of human life.

  Do you favor or oppose establishing a right-to-die policy in
  Michigan?
