E1 Likelihood Vote In 1998 Election

Next, I have a few questions about the general election that will be held later this year.

In the November election, voters will have the chance to elect the governor, members of the state legislature, and representatives to the U.S. Congress in Washington.

How likely is it that you will vote in this election? Would you say very likely, somewhat likely, somewhat unlikely, or very unlikely?

E3 Congressional Control

Generally speaking, what is the better situation:

That a president's political party also have a controlling majority
in Congress -or-

Is it better that one party controls the white house while the other
party controls the Congress -or-

Don't you think it matters too much one way or the other?

H1a Instruction - Research

Public colleges and universities in Michigan spend their funds on a variety of different activities. The three main activities are student instruction, research, and "public service" outside the college or university. (Public service includes such things as agricultural extension and working with community groups.)

I am going to ask whether you would change the balance between these activities.
