D10   Trust Federal Government

     People have different ideas about how much they can trust government to
     do what is right. These ideas don't refer to Democrats or Republicans
     in particular, but just to the government in general. We want to see
     how you feel about this for each of the levels of government.

     How much of the time do you think you can trust the federal
     government in Washington to do what is right -- nearly always

B2a   MSUE Agriculture Profitability

     The next set of questions are about MSU's Extension service.

     Michigan State University's Extension service is looking into how it can
     best serve the needs of Michigan's communities today. I will mention
     a few ideas that are being considered. Please tell me whether you think
     each idea should be given high priority, some priority, or little or no
     priority in MSU Extension's future efforts.

     First, strengthening agricultural profitability.

w4a   Mitigation - Replace Same Type Wetland

       During construction or other activities, wetlands are sometimes harmed or
       destroyed. The law requires that these wetlands, if larger than 5 acres,
       be restored or replaced. This is called wetland mitigation.

       There are many different kinds of wetlands. The most common are marsh and
       wooded. Others, such as bogs and fens are less common, but more
       ecologically rich or diverse.

       If a common type wetland (such as a marsh) is lost or damaged, should it
       only be replace with the same type of wetland, or do you think it should be
       replaced with a less common but more rich or diverse type of wetland?

W5a   Familiarity Wetland Banking

      To assist in replacing wetlands, some states have programs called wetland
      banking.

      Sometimes, when a wetland is damaged or destroyed, it is not possible
      to restore or replace the wetland at the same site. Wetland Banking programs
      allow private and public organizations to create wetlands that builders
      and others can buy into as a way of replacing wetlands damaged or destroyed
      during construction.

I3   Charge Sales Tax

       As you know, when residents of Michigan use the Internet to buy products
       from catalogues, they are usually not charged the Michigan state
       sales tax. However, according to Michigan law they are supposed to pay
       this tax to the state when they file their state income tax.

       To what extent would you favor or oppose requiring companies that sell
       products over the Internet to automatically include Michigan's sales tax in
