D10                    Trust Federal Government

       People have different ideas about how much they can trust government to

B3a                   Early Release - Version 1

      Now a few questions about the current state budget in Michigan.  You may
      know that because of the slow economy, the state budget in Michigan is in
      deficit.

      In order to cut the cost of running prisons, some states have used
      early release of prisoners who are already scheduled to be released.

      Would you favor or oppose the early release of prisoners as a way to

B3b                    Early Release - Version 2

     Now a few questions about the state budget. You may know that because
     of the slow economy, the state budget in Michigan is in deficit.

     One possibility for reducing state budget deficits is to use early
     release of prisoners who are already scheduled to be released.

     Would you favor or oppose the early release of prisoners as a way to
     reduce the state budget deficits?

    Of all the things that the state could do to address the budget deficit,
which one of the following should the state government do
first?

    Reduce medicaid spending, reduce revenue sharing to local governments,
reduce aid to local schools, reduce aid to colleges, or reduce prison
spending by releasing prisoners early?

P15                    Term Limit Approval

     In 1992, voters in Michigan approved term limits for elected state
     officials.  Under this constitutional amendment, State house members are
     limited to no more than six years in office, while state senators, and the
     Governor, Attorney General and Secretary of State are limited to no more
