A2a Addressing Important Problem Version 1

You mentioned (fill problem) as the most important problem in your community. There are various ways in which this problem could be addressed. I want to ask a few questions about this. Do you think this problem is something that can best be handled by the government, by private business, by voluntary and community organizations, by the people themselves, or by some other kind of organization?

Input location: 1/40

B14 State or Student Pay for Education

At public universities, the State of Michigan currently pays slightly more than half the cost of each in-state student's education, while the student pays for most of the rest as tuition. As costs continue to rise, should the state pay a larger portion of the cost of each student's education to keep tuition low or should each student pay higher tuition?

PCT	N	VALUE	LABEL

E7 Change in Deficit since Clinton

Now I would like to talk about a few specific issues. The size of the annual federal budget deficit was a major issue in the 1992 presidential campaign. As you probably know the federal deficit is the amount by which federal spending exceeds the money raised through taxes in a single year. This is different from the federal debt, which is the total of all of the deficits that have occurred through the years.

Now, thinking about the annual budget deficit, how do you think the size of it has changed since President Clinton took office? Has there been a large increase in the annual deficit, a small increase, has it stayed about the same, has there been a small decrease in the deficit, or has there been a large decrease?

PCT	N	VALUE	LABEL
