B1b   Budget - Do First

As you may know, because of the slow economy, the state budget in Michigan
is in deficit.

Of all the things that the state could do to address the budget deficit,
which one of the following should the state government do first?

Reduce Medicaid spending, which is health care for low income or needy
people, reduce revenue sharing to local governments, which is money given to
local governments to support police and fire protection, street and road
maintenance, and other administration, reduce aid to local schools, reduce
aid to colleges and universities, or reduce prison spending by releasing
prisoners early?

B3a   Early Release - Cut Cost Prisons

        In order to cut the cost of running prisons, some states have used
        early release of prisoners who are already scheduled to be released.

B14   Tuition Percentage

        At public colleges and universities, the State of Michigan currently pays
        a little less than half the cost of each in-state student's
        education, while the student pays for most of the rest as tuition.

        As costs continue to rise, should the state pay a larger portion of the

inca   Income $30,000 or More

        To get a picture of people's financial situations, we'd like to know the
        general range of incomes of all households we interview. This is
        for statistical analysis purposes and your answers will be kept strictly
        confidential. Now, thinking about your household's total annual
        income from all sources (including your job), did your household receive
        $30,000 or more in 2002?
