CL1                    Civil Liberties

     Next I am going to read two statements. Please tell me which one you agree
     with most.

     The first is, in order to curb terrorism in this country, it will be
     necessary to give up some civil liberties.    -or-

     We should preserve our freedoms above all, even if there remains some
     risk of terrorism.

E4                        Charter Schools

    The next few questions are about education and education funding.

    Charter schools are independent public schools that are free from
many of the regulations placed on traditional public schools.  Charter
schools can be organized by anyone, as long as they receive approval from
a public sponsor such as a school district or a university.

    Do you favor or oppose charter schools in Michigan?

sc1                     Funding for Capital Resources

     Funding for schools comes primarily from two sources, the state government
     in the form of per pupil funding, and local communities in the form of
     bonds which are approved by local communities and paid for through property
     taxes.

     Currently things like school buildings, computer and science labs, and
     wiring to access the internet are funded primarily by local communities.
     These are considered capital resources.

     Do you think these capital resource expenditures should be funded

        To get a picture of people's financial situations, we'd like to know the
        general range of incomes of all households we interview.  This is
        for statistical analysis purposes and your answers will be kept strictly
        confidential.  Now, thinking about your household's total annual
        income from all sources (including your job), did your household receive
