btax1   Now, I have a couple of questions about taxes on businesses.

Now, I have a couple of questions about taxes on businesses.

A tax on a business's income might be passed on to consumers through
higher prices. It could also be passed on to workers by paying lower wages,
or to investors through lower returns on investments.

Do you think business income taxes are mostly passed on to
consumers, to workers, to investors, or shared about equally?

rid3   Willing Verify Social Security #

        Congress, in response to the terrorist attacks of 9/11, passed the
    Real ID Act. A Real ID is a driver's license that meets new national
    standards. A Real ID would be required for many federal or official
    purposes such as boarding commercial airplanes, opening bank accounts,
    and accessing federal buildings.
        Next, please tell me how willing or unwilling you would be to do each
    of the following in order to obtain a Real ID driver's license.
        How willing or unwilling would you be to permit the Secretary of State
    to verify your social security number (to obtain a Real ID

btb1   Aware Bovine TB

     Next, I have some questions about an environmental issue.

     Bovine tuberculosis is a disease caused by a bacterial infection that
makes breathing difficult. If left untreated, it often results in the
death of the infected animal. Although the disease is mainly found in
cattle, it is found every year in a small number of Michigan's
wild deer herds, mainly in five counties in the northeast lower peninsula.

     In 1998, the governor of Michigan directed state agricultural and
natural resource agencies to eradicate (eliminate) bovine tuberculosis
from Michigan.

     Before today, were you aware that bovine tuberculosis affects some of
Michigan's cattle herds?

btb2   Eradicating Bovine TB Cattle

    Eradicating bovine tuberculosis will likely require cattle farmers to
    make major, sometimes costly, changes to how they operate their farms. It
    will also require reducing wild deer herds to very low population levels.

    How important is it to you that bovine tuberculosis be eradicated
    from Michigan's cattle herds?

inca   Household income (More or less than $30,000)

     To get a picture of people's financial situations, we'd like to know the
     general range of incomes of all households we interview. This is
     for statistical analysis purposes and your answers will be kept strictly
     confidential. Now, thinking about your household's total annual
     income from all sources (including your job), did your household receive
     $30,000 or more in 2007?
