P4a   Issue Governor/Legislature

        There are many issues that the governor and legislature (in Lansing)
        could spend time dealing with this session.

        Of all the issues they could work on, which issue do you think
        is the most important for them to focus on?

D10   Trust Federal Government

    People have different ideas about how much they can trust
    government to do what is right. These ideas don't refer
    to Democrats or Republicans in particular, but just to the
    government in general. We want to see how you feel about
    this for each of the levels of government.

    How much of the time do you think you can trust the federal
    government in Washington to do what is right -- nearly

        The next set of questions focus on tourism in Michigan.

        The Bureau of Labor Statistics estimates that over 400,000
        people are currently employed in Michigan's tourism industry.

        With this in mind, do you think the state of Michigan should
        be spending more on in-state tourism, spending less on in-state

lpi1   Importance Parks-Trail System

     Next, I have some questions about Michigan's economic recovery.
     Michigan has many natural resources that have an impact on our
     economy. Some provide a source of jobs and revenue while others
     contribute to the quality of life for Michigan residents. I
     would like to read you a list of natural resources and industries
     in Michigan and have you tell me how important you think each one
     is to Michigan's economic recovery.

     How important are Michigan's parks and trail systems to Michigan's
