D10 Trust Federal Govt

People have different ideas about how much they can trust government to do what is right. These ideas do not refer to Democrats or Republicans in particular, but just to the government in general. We want to see how you feel about this for each of the levels of government.

How much of the time do you think you can trust the federal government in Washington to do what is right -- nearly always or most of the time, some of the time, seldom, or almost never?

%	N	VALUE	LABEL
14.8	150	1	NEARLY ALWAYS OR MOST OF THE TIME

netn8 Net: Not Interested

Now that we have an idea of how much you think it costs to get Internet service at home, we would like to get a better idea of why you do not currently have Internet service at home.

The next few questions have to do with various reasons why people do not have Internet service at home.

Some people say that they just are not interested in using the Internet at all. Would you say that you are simply not interested in using the Internet under any circumstances?

spnk1a Counterfeit Purchase: Known

Next we would like to ask some questions about product counterfeiting. When we say product counterfeiting, we are not talking about money or false documents such as passports or drivers licenses. Instead, we are talking about fake consumer products, such as handbags, watches, sports jerseys, sunglasses, electronics, and medicines.

Counterfeit products can be deceptive in that a consumer may think they are buying a real product when they are not. These counterfeit products can also be non-deceptive where a consumer knows or is quite sure that they are fake.

Have you ever intentionally purchased a product you knew was a counterfeit product such as a luxury handbag or team jersey?

%	N	VALUE	LABEL
15.1	152	1	YES
