## D10 Trust Federal Govt

People have different ideas about how much they can trust government to do what is right. These ideas do not refer to Democrats or Republicans in particular, but just to the government in general. We want to see how you feel about this for each of the levels of government.

How much of the time do you think you can trust the federal government in Washington to do what is right -- nearly always or most of the time, some of the time, seldom, or almost never?

## Safe Delivery - Public Awareness

The Safe Delivery of Newborns law was enacted January 1, 2001, in response to an increase in the number of newborn infants abandoned in unsafe places.

The law targets troubled parents and encourages the placement of a newborn no more than 72 hours old with an emergency service provider. An emergency service provider is defined as a uniformed or otherwise identified employee of a fire department, police station or hospital that is inside and on duty. It also can include a paramedic or EMT who responds to a 9-1-1 call.

The law allows that the surrender be anonymous, but encourages the parent to share relevant background information which will be kept confidential. The surrendered infant will be placed with an approved adoptive family.

In your opinion, how important is it to ensure that there is public awareness of this law? Would you say it is very important, somewhat important, not very important, or not important at all?
