I1   Deficit

        Now I would like to talk about a few specific issues. The size of the
        annual federal budget deficit was a major issue in the 1992 presidential
        campaign. As you probably know the federal deficit is the amount by
        which federal spending exceeds the money raised through taxes in a
        single year. This is different from the federal debt, which is the
        total of all of the deficits that have occurred through the years.

        Now, thinking about the annual budget deficit, how do you think the
        size of it has changed since President Clinton took office? Has there
        been a large increase in the annual deficit, a small
        increase, has it stayed about the same, has there been a small decrease
        in the deficit, or has there been a large decrease?

        Now thinking about other drug usage and driving.

        In recent years, training programs have been developed to help law

RC1   Preference - Jobs

        [stop timer]Next, I have some questions about jobs and education.

        Some people say that because of past discrimination, blacks should be
        given preference in hiring and promotion. Other people say that such
        preference in hiring and promotion of blacks is wrong because it gives
        blacks advantages they haven't earned.

        In your opinion, should blacks be given preference in hiring and

INC1   Income $30,000

          To get a picture of people's financial situations, we'd
          like to know the general range of incomes of all
          households we interview. This is for statistical analysis
          purposes and your answers will be kept strictly
          confidential. Now, thinking about your household's total
          annual income from all sources (including your job), did
